THE CHANCELLOR'S COMMENTARY

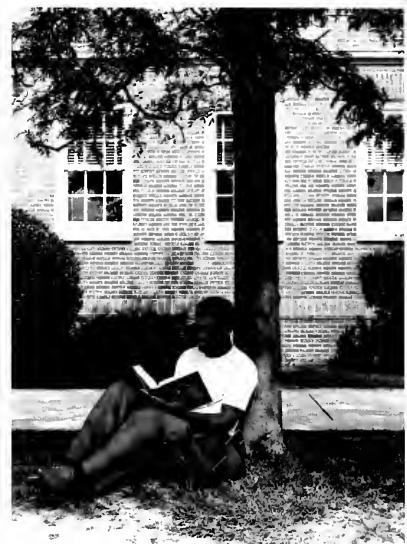

In the AIMS OF EDUCATION, Alfred North Whitehead espoused a kind of utilitarian education that would combine the imaginative ideas of the liberal arts with the practical elements central to skills and occupations. The academic exercises of the intellect separated from the pressures, disappointments, and successes of daily work he believed, can become fruitless speculation. Similarly, work, no matter how skilled and specialized, eventually becomes dull, unfulfilling and devoid of meaning unless it is illumined by imagination, vision, and an understanding of its significance in the broadened world of life. In short, Whitehead subscribes to an educational curriculum that produces persons who "possess both cultural and expert knowledge in some direction."

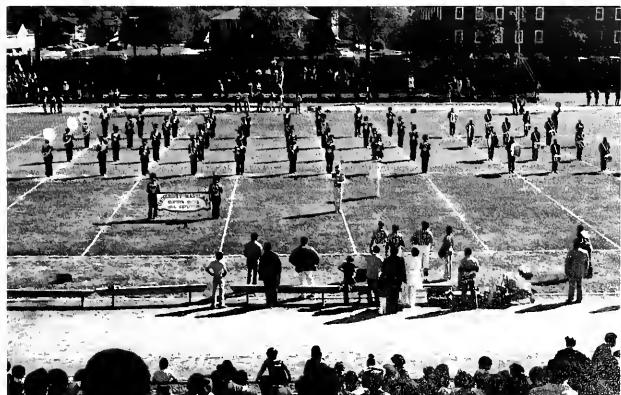

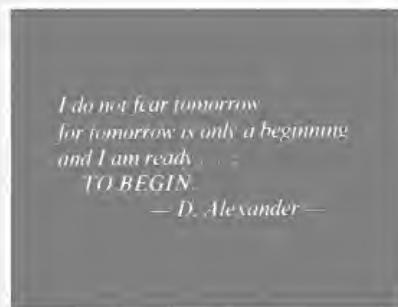

The University of Maryland, Eastern Shore has pursued this noble purpose in its preparation of the Class of 1978. The task has been challenging, and we take pleasure in knowing that each of us — student and teacher — has grown as a result of the encounter.

"What thou lovest well remains," said a poet. Perhaps speaking with assurance to all who love but must leave the spacious campus and towering walls, where four years have been too little room for beholding the yellow forsythia embracing the library wall in spring, the blazing rain-

bow of color dropping from serene trees in the fall, and the unshattered snow clinging gently across the Trigg Hallward winter.

On behalf of the 1978 yearbook staff, a sincere congratulations is extended for all graduating seniors.

The Activity of Life

Some days we work from Sun to Sun,
Some days our work is never done.
We strive real hard, and play good sports.
We even train in undershorts.

The Sun comes up, and goes back down,
The end of the day, we wear a frown.
But during this course we all must say,
The Activity of life is our only pay.

A spot dance here, a sip of Kappa juice,
the activity of life has got you loose.
And OH, those bakeries, the cookies and punch,
The Activity of life when out to lunch.

We take long trips to New York City,
The ladies and Gent's are dressed real pretty.
As the stretch gets shorter, we see a blue ribbon,
A "Laxidaisical" state. No we're trippin . . .
Into the Activity of Life.

Zeta Phi Beta was organized at Howard University on January 16, 1920 as the result of the encouragement given to the 5 founders by Charles and Langston Taylor, members of Phi Beta Sigma fraternity. Thus, Zeta Phi Beta and Phi Beta Sigma became the first official Greek-letter sister and brother organizations.

The idea of the founders was that the sorority would reach college women in all parts of the country who were sorority minded and desired to follow the ideals of finer womanhood that Zeta Phi Beta had set up.

The organization has spread to all sections of the U.S. and parts of Africa. There are now more than 300 undergraduate and graduate chapters divided into 9 regions. Zeta Phi Beta was formed at U.M.E.S. in 1944.

The objectives of finer womanhood, sisterly love and scholarship have brought together women from all parts of the country and includes women in all professions. These women become an integral part of the community and have interested themselves in civic and social betterment throughout the world.

Omega Psi Phi is a repertoire of social morality, branching outward and installing the teaching of brotherhood.

We the brothers of Omega Psi Phi are not sleep-walking structures rambling about, but we are men, vivid and aware of the needs of humanity. We see ourselves as the model of strength and not the last straw of weakness. We strive for the scholarship of knowledge and perseverance in this hardship called life. We are granules of burning sand that typify the best molding of men.

In understanding that time is never motionless, but always evolving rapidly, we find the stopping point of time and plant our seeds of Omega which carry our supreme and sacred principles, which makes the difference in a man.

Groove Phi Groove Social Fellowship Inc. was founded October 12, 1962 on the campus of Morgan State University. The founders felt the need for changing the complacent traditionalism in a pseudo fraternal organization.

We, the Brothers of Groove Phi, being aware of the increasing complexity of men's problems, especially Black men, and realizing the necessity of forming an organization for the purpose of studying and solving such problems, do therefore organize this fellowship in order to cultivate and encourage high scholastics and good ethical standards. To promote unity and improve the social stature among college men. We also attempt to create intelligent and effective leadership, to study and help alleviate those social and economic problems concerning boys and men, in order to improve the stature of mankind.

SWING PHI SWING Social Fellowship Inc.

Swing Phi Swing Social Fellowship incorporated was founded in 1969. Its basic purpose is to better the community, and to serve the community with pride and dignity.

The record this year does not tell the whole story. Each Saturday, the fighting HA WKS and their coach, Harold Gray, ran onto the field proudly and left the field just as proudly, satisfied in the knowledge that they had performed well. Our formidable opponents, too, knew that they had to fight for their victory. The Alma Mater was sung after each game, for we were there, and we knew we had something to be proud of.

A visiting artist demonstrates some of his talent to interested observers. One of the many cultural activities sponsored by U.M.E.S. to exhibit expert knowledge.

CAMPUS PEEPS

By being attentive and taking good notes these students could be working towards the treasure.

CAMPUS PEEPS

CAMPUS PEEPS

Dr. Bass and helpful students perform an experiment as part of a learning task through experimentation.

Typing is an asset.

SOUL

The U M I S. Soul Explosion band under the direction of Rev. Martin performed outstandingly for the football games for the 77-78 football campaign

EXPLOSION!!!

Many hours of practice and dedication by the band members could have only resulted in the fine performances that they gave us during the football games.

The band is not the only part of soul explosion. The majorettes added beauty and grace to the bands "boogie brat."

CAMPUS PEEPS

After practice is done it's time to perform and here Soul Explosion show their stuff and really get down!

Engrossed in the instructor's lecture.

A visiting pianist entertains a music class and its instructor. Such performances are not only enjoyed, but are also educational to the student who plans his career as a musician, or instructor of the art.

HAWK MESSAGE

(YEARBOOK STAFF)

Yearbook Office

1978

To Whom It May Concern,

The 1978 Hawk yearbook staff, would like to thank, Mr. Wiles, our photographer, and each and everyone for their participation in fund raising projects and picture taking activities, which made this book possible.

We would also like to express our apology to all those who are not pictured or failed to meet picture taking deadlines.

We hope that our edition will be one of many memories in the future.

Editor,
Stafford Dickerson

P.S. Congratulations to all Seniors . . .

We may go our separate ways . . .
We may never come back.
But there were places and times in this home.
We will never forget.

This is not *just* a school.
It teaches us the world is ours.
And gives us the means with which to get it.

The doors are shut.
And the windows are black.

Our plans for success
Are in good cause.
This is not the end,
. . . It is just a pause.
